PROFESSIONAL SUMMARY

- Pre-final year B.Tech Computer Science student at KIIT University, also pursuing a B.Sc in Programming & Data Science at IIT Madras. Developed a role-based Hospital Management System using Flask and SQLite with features such as dynamic doctor availability, appointment scheduling, and treatment history management. Strong foundation in problem-solving, Currently switching to ML with experience working in teams for research publication. Actively involved as an NSS volunteer and a member of Kalakaar (drama society), gaining teamwork, leadership, and event participation experience. Seeking a software development internship to apply technical skills and grow in a practical, production-oriented environment.

EDUCATION

- **Kiit University** Bhubaneswar, India
Bachelor of Technology - Computer Science 2023 - 2027
- **IIT Madras** Chennai, India
Bachelor of Science - Programming and Data Science 2023 - 2027
- **MK College** Sitamarhi, India
Senior Secondary; BSEB
- **NS DAV Public School** Sitamarhi, India
Secondary; CBSE

SKILLS SUMMARY

Languages	Python, Java, JavaScript
Frameworks	Flask, NodeJS, VueJS
Concepts	OOPJ, Data Structure and Algorithm
Soft Skills	Event Management, Public Speaking, Drama Society

PROJECTS

- **Hospital Management System:**
Role-based web application built using Flask, following MVC architecture with SQLAlchemy ORM for database interaction.
 - Implemented dynamic doctor availability and appointment scheduling with status-driven workflows to ensure conflict-free bookings.
 - Built structured patient treatment history and medical record management for reliable tracking of consultations and prescriptions.
 - Developed authentication and role-based access control for admin, doctor, and patient modules to simulate real-world hospital operations. [Project Link](#)

PUBLICATIONS

- **Research: Sentiment Analysis using BERT:**
Publication in progress, scheduled to be published by Springer in March 2026. [View work](#)

CERTIFICATIONS

- **Google AI-ML Virtual Internship (EduSkills — Google):**
I learn fundamentals of machine learning, including supervised and unsupervised learning, data preprocessing, feature engineering, and model evaluation. Gained exposure to AI workflows, basic model training, and ethical considerations in AI systems. Certificate
- **Supervised Machine Learning: Regression and Classification (Coursera – DeepLearning.AI):**
Hands-on coursework covering regression and classification models, data preprocessing, and performance evaluation using practical assignments. Certificate

CO-CURRICULAR ACTIVITIES

- XIMB Fest winner in NUKKAD - Feb, 2025 [link](#)
- NSS Voluteer- 2023-Now [link](#)
